I love Roblox, but there are some things that I don't like. My favorite aspects of Roblox are that it's fun and easy to play with my friends online, and it has funny ways of making you laugh or feeling nervous. My least favorite aspect is that if you use your neighbor's computer (turn it on/jack in) you can't change your username or skin. Also, there are players who break laws such as swear words, so they get banned from Roblox for doing so. I don't think Roblox should be edited at all, but just taken off.

There are two kinds of issues with Roblox development. One is syntax issues which deal with how the code works and how to make it function correctly. The other one deals with data issues which involve working with saved variables in games. Since users can change data, they are prone to having issues in this area.

I like roblox but it is still not better than minecraft in my opinion because minecraft have so much stuff, people can do a lot of stuff. I think Roblox needs to get a lot of money so they can improve more stuff than they already got. I love roblox but I still think that it could be way better, so here is some of my ideas 1. It should have better graphics 2. It should have better game servers 3. There should be more new games, but there is a thing what I don't like about roblox is that the games are kind of the same every single time, and you end up playing them too many times 4. The games should either really get harder or really easier
